

Press Release  
EventHorizon 2017

## Save the date: EventHorizon Global Summit on Blockchain Technology in the Energy Sector

Vienna, 20 December 2016 - The energy market is at a turning point. Leading experts agree that blockchain technology has the potential to shift the whole industry. Decentralised digital platforms will change the way people buy and sell energy. Blockchain technology enables us to build verifiable, secure peer-to-peer structures and it conciliates the use of data and privacy.

EventHorizon ist the first global summit on blockchain technology in the energy sector, convening experts, decision makers from the IT- and Energy-World, Start-ups and established market players to discuss new energy solutions. Dr. Christoph Frei, CEO of the World Energy Council, will give his keynote, and the world's most influential blockchain developers, Vitalik Buterin und Dr. Gavin Wood, will debate „The Technical (R)Evolution: Energy Blockchain“ in the first panel. Make History with us and 50+ aspiring international Start-ups which travel from Australia, China, India, Japan, South Africa and the United States to

**EventHorizon 2017**  
**14-15 February 2017**  
**Hofburg Vienna**

There you will get first hand answers to

- what blockchain is and how it can change the world,
- how blockchain and smart contracts can be used in the energy sector,
- what the resulting business impacts and opportunities are,
- what the regulatory challenges are and how blockchain can help,
- how entrepreneurs can leverage blockchain and how everyone can benefit from this technology.

Be among the first ones to see real applications and use cases and let us shape the energy future together!
