EventHorizon 2017

Media Invitation: EventHorizon 2017
Global Summit on Blockchain Technology in the Energy Sector

Vienna, 31 January 2017 – This year is expected to be a great year for Blockchain Technology and the Energy Market with new enterprises and applications dashing forward. EventHorizon is the first global summit on blockchain technology in the energy sector, convening experts, decision makers from the IT- and Energy-World, government officials, start-ups and established market players to discuss new energy solutions.

EventHorizon 2017
14-15 February 2017
Hofburg Vienna

We prepared inspiring keynotes for you:

- „What keeps Energy Leaders up at Night?“ by World Energy Council CEO and Secretary General Dr. Christoph Frei
- „Dezentralization vs. Centralization - The Advantages of Distribution“ by Ethereum Chief Scientist Vitalik Buterin
- „Blockchain meets Energy: State of the Market“ by Cleantech Group Director Jules Besnainou

You are invited to discuss and share your opinion in live-polls at multiple vibrant panels:

- The Technical Revolution: Energy Blockchain - hosted by Microsoft
- What's in It for the Energy Sector - hosted by Vattenfall
- Adjusting Regulation to Empower Blockchain Apps
- Investing in the Future of Energy
- The Smart Energy Security - hosted by PwC

Receive first hand answers and get to know new solutions and use cases from international start-ups on the second day. 70+ start-ups announced their presence and travel from Australia, China, India, Japan, South Africa and the United States. 15 of these young enterprises are going to present their solutions for the future energy market to you and our attendees who join us from 29 countries.

For press tickets please get in touch with the Media Team at media@eventhorizon2017.com. A registration prior the event is required. You will then receive a ticket code which enables you to join the event community online and to use our event app to facilitate your time scheduling and organizing of contacts. If you have specific demands please let us know.
